London, United Kingdom

SUMMARY

Experienced software developer with a robust background in the complete software development life cycle (SDLC), covering design, implementation, and testing. A collaborative team player known for fostering positive relationships, delivering projects on schedule, and maintaining high-quality standards. A creative problem solver, skilled in crafting clean, scalable, and reusable code, with a successful track record in developing innovative solutions for applications and client-server platforms.

EDUCATION

Msc. Computer Science

University Of Law, London

10/2023 - 10/2024

Mathematics

Lagos State University, Lagos

Bachelor of Science B.SC

10/2016 - 08/2021

- Cultivated a structured approach to problem-solving, emphasizing critical thinking and logical reasoning, vital assets for tackling intricate challenges.
- Acquired advanced skills in working with numbers, data, and mathematical models, applicable in fields like finance, statistics, and data analysis.
- Developed strong analytical and problem-solving skills, enabling precise evaluation of complex issues and efficient deconstruction of problems

EXPERIENCE

Backend Dev

Parkwell Africa, Lagos.

11/2022 - 04/2023

- Partnered closely with Front-end/Mobile developers to ensure seamless integration of backend and user interface components Using Typescript Nest Js, GraphQL Apis.
- Successfully orchestrated the migration from Heroku Postgres DB to AWS RDS, enhancing database efficiency and performance.
- Designed and launched the Parkwell (officeSpace) app, enabling users to pre-book office spaces for meetings and upcoming events.
- Demonstrated expertise in troubleshooting and debugging applications, ensuring optimal performance and user experience.
- Implemented 3rd party APIs on our backend, expanding the functionality and capabilities of our applications.

Backend Developer Intern

Zummit Africa

Lekki, Lagos.

02/2022 - 07/2022

- Proficiently implementing user authentication for seamless sign-up and login processes in web applications using Typescript Nest Js, Postgres SQL and Rest APIs which allows for the creation of server-side applications with access to essential resources for building fully functional solutions.
- Collaborative approach with Front-End developers to ensure smooth integration between backend and user interface components.

- Adept at troubleshooting and debugging applications to maintain optimal performance and user experience.
- Thoroughly review and assess code to ensure quality, efficiency, and adherence to best practices.

Backend Developer Intern

SkillUp Africa

Ajah, Lagos.

08/2021 - 02/2022

- Developed robust REST APIs utilizing Javascript Express.js, incorporating JWT for secure user authentication, and leveraging MongoDB as the database.
- Managed tasks in agile 2-week sprints, conducting sprint reviews, and daily stand-ups for efficient project execution.
- Collaborated closely with product managers, stakeholders, and designers to bring new product offerings and platform tools to fruition.
- Joined a team of 4 engineers in the successful development of the Children Savings App, ensuring a cohesive and effective workflow.
- Implemented efficient unit and integration tests to maintain code quality and functionality.
- Ensured proper documentation of APIs for comprehensive understanding and future development.

VOLUNTEER

Bootcamp Facilitator

Tooltip Grassroots Development Initiative

Ojo, Lagos.

08/2022 - 09/2022

- Led training sessions for more than 20 teenagers, instructing in courses such as UX Design and Front-End Development.
- Collaborated closely with fellow facilitators to deliver comprehensive mentorship, aiding teenagers in their early steps toward a career in the tech industry.
- Employed effective teamwork and communication skills to ensure a supportive and productive learning environment for all participants.

CORE SKILLS

- | | |
|---|--------------------------|
| • Node JS, Express JS, Nest JS | • Git & GitHub |
| • Data Structure and Algorithms | • JavaScript, TypeScript |
| • Database management | • API integration |
| • Problem-solving | • Time management |
| • Good Communication and Interpersonal Skills | • Error handling skills |
| • Knowledge of front-end technologies | • Teamwork |

LANGUAGES

- English (Fluent)
- Yoruba (Native)
